

Installation Instructions for the Elite Rocker Theater Chairs

STEP 1:

Mount your leg standards on a 22 inch center to center layout to your floor.

Helpful Note:

If mounting to wood we suggest using 3/8 by 1-1/2 inch lag bolt.

If mounting to concrete there are many different concrete anchors you can pick up at any local hardware store.

You may want to leave your leg standard hardware a little loose until back and seat are attached.

Remove end panel cover (if purchased) by removing 3 Phillips screws. There are 2 on rear of leg standard and one on inside.

Remove the 2 Phillips screws from front of padding on center leg standard. Remove pad.

STEP 2:

Place the back bracket over the leg standard rocker mount. The metal studs will line up with back bracket holes. Attach washer and nut hardware on the two rear bolts and tighten.

STEP 3:

You are now ready to mount your seat.

Place the seat bracket over the front leg standard bolts. Attach the washer and nut hardware and tighten.

STEP 4:

Re attach the end panels and center leg standard pads.

This is what the completed chair will look like.

If you need assistance with assembly or installation please call our sales office. We are available Monday – Friday 9 AM to 5 PM EST.
